

MangoSelect®

Natural Nutritional Ingredient

NBC presents a new active ingredient, **MangoSelect®**, a dry extract of Mangosteen (*Garcinia mangostana L.*) dosed at 10% in alpha-mangostin.

Scientifically proven in double vivo study, **MangoSelect®** reduces significantly joints pains to seniors (-50%) and sportsmen (-31%).

- Joint Health
- Tendinitis
- Rhumatism
- Arthrosis
- Seniors & Sportsmen

Clinically proven

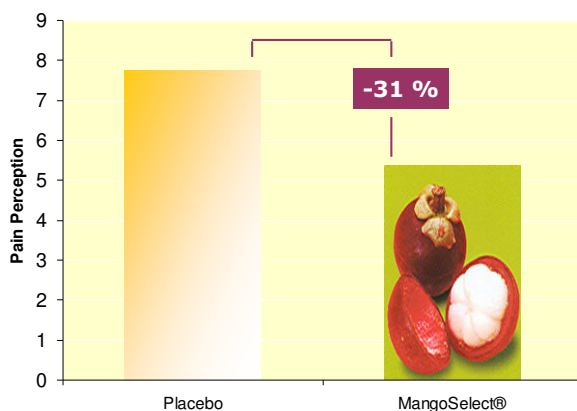

MangoSelect®

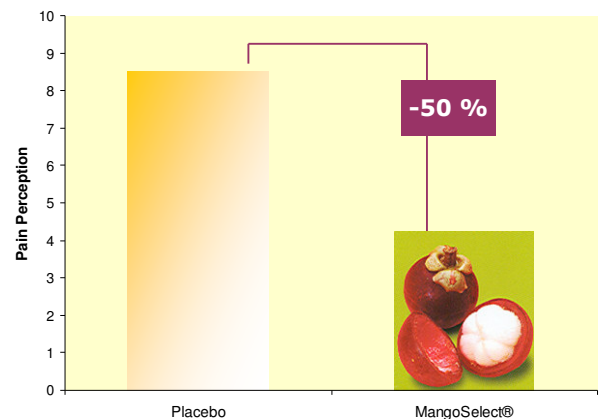

MangoSelect® Proven Results

- In a double vivo-study, we have administrated to 22 patients (sportsmen; seniors) **0,6g/day of MangoSelect®**. We observed a significant decrease of joint pain after one week treatment.

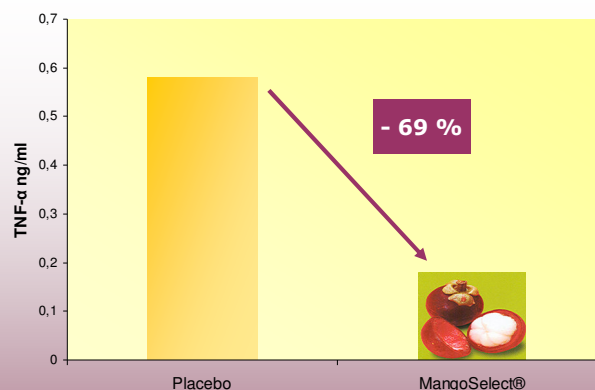

Reduced pains sportsmen of 31%

Reduced pains old people of 50%

- In a clinical study in animals, **8,5mg/kg of MangoSelect®** decreases significantly inflammatory reaction induced by lipopolysaccharides (LPS).
